Diggum came to me at a time in my life when I really needed a really good friend. He had fully generalized demodex mange, uncontrolled hypothyroid disease and a skin infection. He looked so dejected when I met him, but when I walked into his kennel, all he wanted was love and affection and gave me a big dloppy kiss with that big Bordeaux smile. How could I not want to take this big boy home and love him with all my heart? With love and time (as well as great veterinary care) he healed both himself as well as me. He is my best friend and I love him dearly. Everyday he makes me smile, as he throws his big old paws around while bounding around the house. He is my best friend. Just ask him....
